

SERMON SERIES Aug - Nov 2008

Mornings

This term our Sunday morning sermons focus on "Practical Christianity". How does scripture speak to us about practical issues of daily living? What about relationships with others, family life, the environment, society and the wider world?

Evenings

Our evening sermons this term will consider a number of Psalms. The idea is that we should see how there are psalms for various situations and moods, how they can speak into our lives and how we can use them in our daily living.

Sunday Sermon Programme

August - November 2008
